

Alexandre Tozzini

Date of Birth: 06.04.1985 | Nationality: Brazilian

Languages

Portuguese:	Mother tongue
English:	B1
German:	B1
Italian:	A1

Key Skills

Golang | Ruby on Rails | PL/SQL |
React.js | Angular | Python |
PostgreSQL | Oracle | MySQL |
SQL Server | Docker | GitHub |
Clean Architecture | DDD |
Scrum | Kanban | Jira | TDD |
CI/CD | Linux (Debian, Ubuntu,
Arch) | AWS (EC2, RDS) |
Sentry | Redis |

Certificates & Trainings

08/2020 – 08/2020
Certified ScrumMaster® (CSM®) |
Scrum Alliance | Online

Official certification in Scrum
methodology and agile leadership.

Hobbies & Interests

Jiu-Jitsu | Hiking |
Aquarium keeping | Bible study |
Family |

Work Experience

03/2025 – Present

IT Business Analyst | PREVIG | Florianópolis, Brazil

- › Development of APIs in Go (Clean Architecture, DDD).
- › Implementation of PL/SQL solutions on Oracle 11g databases.
- › Use of PostgreSQL for critical pension-related systems.
- › Development of web applications with Angular.
- › Use of Docker, GitHub/Bitbucket, and automated testing.

03/2024 – 12/2024

Full Stack Software Engineer | Appolus Tecnologia | Sete Lagoas, Brazil

- › Development of public health projects.
- › Backend development with Ruby on Rails, Go, and PostgreSQL.
- › Frontend development with React.js; containerization with Docker.
- › Use of AWS (EC2, RDS); error tracking with Sentry.

07/2023 – 02/2024

Full Stack Software Engineer | Engefoto S.A. | Curitiba, Brazil

- › Development of solutions for cadastral management and aerial surveying.
- › Use of Ruby on Rails, Ext JS, React.js, PostgreSQL.
- › Performance optimization and collaboration with MS DevOps.
- › Active participation in agile sprints, code reviews, and project leadership.

10/2022 – 05/2023

Full Stack Software Engineer | Vindi | São Paulo, Brazil

- › Development of online payment platform projects with Ruby on Rails and React.js.
- › Backend development with Ruby on Rails, testing with RSpec.
- › Frontend development with React.js.
- › Task management using GitHub Projects.

12/2020 – 10/2022

Full Stack Software Engineer | Caiena | Campinas, Brazil

- › Development of web projects for the public education system.
- › Use of Ruby on Rails, JavaScript, MySQL, Redis.
- › Work with agile methodologies (Scrum, Kanban).
- › Use of AWS (EC2, RDS) and TDD with RSpec.

07/2017 – 11/2020

Back End Developer | Kazap Tecnologia | Mogi Guaçu, Brazil

- › Development of systems for the public health and education sectors.
- › Use of Ruby on Rails, PostgreSQL, Jasper Reports.
- › Agile development with Scrum and Kanban.
- › Implementation of complex PostgreSQL functions.

02/2016 – 06/2017
